

HM Dijon Chicken

8 servings | Low Fat | High Protein | Low Carb

INGREDIENTS

- 1.5 lbs boneless skinless chicken breast
 - 18 tsp (6 tbsp) Dijon mustard
 - 1/2 tsp garlic powder
 - 1/2 tsp onion powder
 - 1/2 tsp smoked paprika
 - 1/2 tsp black pepper
 - 1/2 tsp curry powder
 - 1/2 tsp cumin
-

PREP NOTES

Dijon as a Marinade: The Dijon mustard serves as both the flavor base and a natural tenderizer. The acidity in the mustard gently breaks down the chicken proteins, resulting in a juicier, more tender result. Do not substitute with yellow mustard - the flavor profile is entirely different.

Marinating Time: For best results, marinate for at least 2 hours in the refrigerator. Overnight is ideal and produces noticeably more flavorful and tender chicken. If you are short on time, even 30 minutes at room temperature makes a difference.

Chicken Prep: Trim any visible fat before coating. For more even cooking, pound thicker pieces to a uniform thickness of about 3/4 inch using a meat mallet or the bottom of a heavy pan.

INSTRUCTIONS

Step 1 - Mix the Spice Blend

Combine garlic powder, onion powder, smoked paprika, black pepper, curry powder, and cumin in a small bowl. Mix well to create an even spice blend.

Step 2 - Prepare the Marinade

In a large bowl or zip-lock bag, combine the Dijon mustard with the spice blend. Mix thoroughly until the spices are fully incorporated into the mustard.

Step 3 - Coat the Chicken

Trim the chicken breast and pat dry with paper towels. Add to the bowl or bag and coat each piece thoroughly on all sides with the Dijon spice mixture. Cover and refrigerate for at least 2 hours, or overnight for best results.

Step 4 - Bring to Room Temperature

Remove the chicken from the refrigerator 15-20 minutes before cooking. This helps it cook more evenly and prevents the outside from overcooking before the center is done.

Step 5 - Cook the Chicken

Heat a large oven-safe skillet or cast iron pan over medium-high heat. No additional oil is needed - the Dijon coating provides enough moisture. Place the chicken pieces in the pan and sear for 3-4 minutes per side until golden brown. Then transfer to a 400F oven and bake for 12-15 minutes until internal temperature reaches 165F.

Step 6 - Alternatively - Bake Only

Preheat oven to 425F. Place coated chicken on a parchment-lined baking sheet. Bake for 22-25 minutes until cooked through and lightly caramelized on top. This method is easier for larger batches.

Step 7 - Rest and Slice

Remove from heat and let rest for 5 minutes before slicing or portioning. This is important - cutting immediately releases the juices and results in drier chicken. Slice against the grain for maximum tenderness.
